Collaboration for Healthcare IT and Compliance

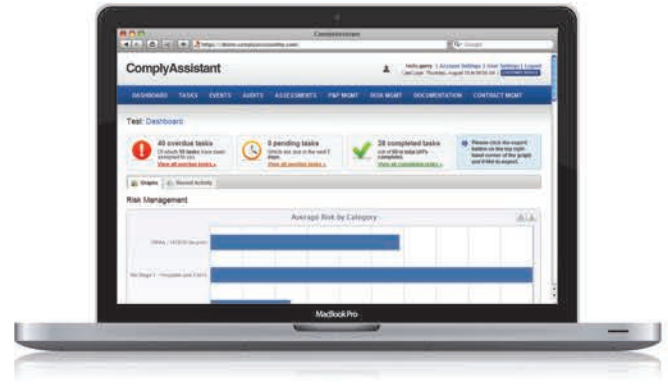

We offer healthcare IT and compliance information, products, and services.

Blass Compliance

Most healthcare organizations have limited resources for managing an ever-increasing scope of compliance activities and are turning to software

tools like ComplyAssistant to help them manage compliance projects more efficiently. Visit us at www.complyassistant.com.

Tools for Compliance Professionals

Blass Consulting

Blass Consulting focuses on providing professional consulting services for healthcare IT strategic planning, disaster recovery / business continuity planning,

and Meaningful Use-HIPAA-HITECH compliance. Our consultants have extensive experience in healthcare IT and compliance and deliver excellent results. Visit us at www.blassaffiliates.com/consulting.

In addition to ComplyAssistant, we offer numerous other tools to help you take control of compliance, including:

- Due diligence Excel workbook
- Policies and procedures
- PowerPoint and work force training
- Disaster recovery tools

Blass Design

Blass Design is a web design studio that offers high-quality web design, web development, search engine optimization, and social media marketing
