

Professional Consulting

HIPAA-HITECH Security, Meaningful Use and IT Strategic Planning

HIPAA-HITECH Security, Meaningful Use, and IT Strategic Planning

Blass Consulting focuses on providing professional consulting services for healthcare IT strategic planning, disaster recovery / business continuity planning, and Meaningful Use-HIPAA-HITECH compliance. Our consultants have extensive experience in healthcare IT and compliance and deliver excellent results.

Meaningful Use Audits

We conduct audits of final rule requirements for the Medicare and Medicaid electronic health record incentive program's (Meaningful Use) compliance. Our standard approach covers and documents all meaningful use objectives and associated measures.

IT Strategic Planning

We have assisted numerous healthcare providers in developing and implementing an information technology strategic plan. Our service offerings include enterprise assessment, vendor selection, contract negotiation, system implementation / project management assistance, and technical support.

HIPAA-HITECH Security Assessment and Mitigation

- HIPAA / HITECH assessments that cover every standard and implementation specification.
- Policies and procedures review and recommendations, and we provide new templates where needed.
- Random audits (e.g. mock government audit) of your latest risk assessment documentation vs. operational compliance.
- Technical risk assessments, such as intrusion vulnerability scanning, intrusion penetration testing, etc.
- Electronic protected health information (ePHI) risk assessment.
- Network, software, hardware and facilities threat assessment.
- Facility physical security assessments.
- Workforce training.
- Disaster recovery planning.
- HITECH business associate agreements.
- Breach notification and incident response and reporting templates.
- Detailed and executive summary reports and presentations.
- Assistance with mitigation action items.
