

ComplyAssistant

Automate Compliance Management

Take Control of Compliance

Automate the management and documentation of compliance activities.

Why Use ComplyAssistant?

Most healthcare organizations have limited resources for managing an ever-increasing scope of compliance activities and are turning to software tools like ComplyAssistant to help them manage compliance projects more efficiently.

Why Clients Love ComplyAssistant

- Simple and clean user interface
- Quick setup - ready to use in minutes
- Knowledge base of guidance for rules and accreditations
- Increased project collaboration
- More efficient use of limited resources
- Manage by priorities, alerts, and exceptions
- Audit trail of evidence of due diligence

ENTERPRISE PROJECT MANAGEMENT

Stay on track and meet project/task targets via automatic alerts and extensive filtering of overdue and pending tasks, priorities, risk, compliance levels, and more.

AUTOMATIC E-MAIL NOTIFICATIONS

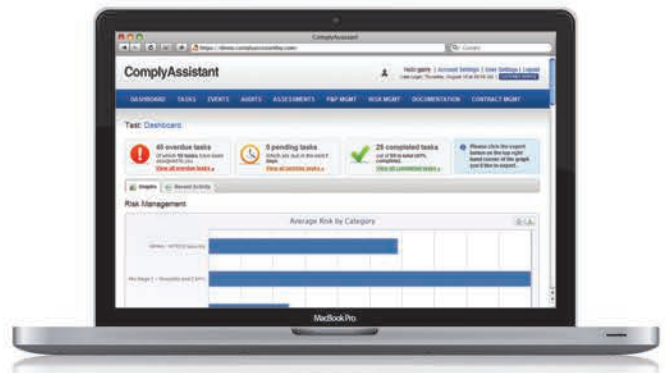

Automatically notify users of task assignments and modifications, pending and overdue tasks, and comments for more efficient collaboration.

Client Testimonials

"We chose ComplyAssistant because it offers powerful and user friendly functionality for managing and documenting our day to day compliance activities. The dashboard is excellent and simple to use. It helps us collaborate and keeps us focused."

~ Robert Babin, Director of IT Strategic Initiatives & CISO at Saint Peter's Healthcare System, New Brunswick, New Jersey

POWERFUL AND FLEXIBLE REPORTING

View high level executive graphs and reports and drill down to supporting details for efficient management of compliance.

ATTACH FILES AND DOCUMENTATION

Attach documentation for proof of due diligence and evidence of compliance.
